

Intelligence And Motivation Among Day-release Students: A Selection Of Papers

Theoretical content	The goals targeted	Classroom activities (exercises)	Homework
Class 01 - Course proposal overview - Pretest data collection - Learning strategies	- To present the course overview - To collect the pretest data - To present the theoretical theme: learning strategies	01. To read and to underline a text about self-regulated learning 02. To answer two theoretical questions about reading and underlining	01. To read, to underline, and to summarize the assigned theoretical text. To do research about other learning strategies
Class 02 - Motivation to learn	- To present the theoretical theme: motivation to learn	01. To do theoretical exercises about motivation to learn	01. To create and to answer three theoretical questions about the assigned theoretical text. To do theoretical exercises about motivation to learn
Class 03 - Self-handicapping strategies - Time management strategies	- To present the theoretical theme: self-handicapping and time management strategies	01. To answer theoretical self-handicapping strategies questions 02. To write a summary about time management	01. To read the assigned theoretical text and to list the most important concepts. To write a short text about the content read with own words
Class 04 - Causal attributions - Self-efficacy belief	- To present the theoretical theme: causal attributions and self-efficacy	01. To answer a theoretical self-efficacy question 02. To define causal attribution	01. To read the assigned theoretical text and to answer three theoretical questions
Class 05 - Emotional regulation - Anxiety	- To present the theoretical theme: emotional regulation and anxiety	01. To answer a theoretical question about emotional regulation 02. To do a theoretical exercise about anxiety	01. To create a story about a student with anxiety and to propose a method to help him/her to deal with this problem at school
Class 06 Implicit Theories of Intelligence - Posttest data collection - Deadline for learning diary submission	- To present the theoretical theme: Implicit Theories of Intelligence - To collect the posttest data (readministration of initial measures)	01. To answer a theoretical question about intelligence 02. To do an exercise about intelligence beliefs	-
Class 07 - Course feedback	- To provide feedback on student course performance	01. Teacher feedback on student course performance	-

⁴Goals for the Experimental Group II were all targeted so that participants could learn the theoretical content about self-regulated learning.

analyses the relationship between emotional intelligence (EI) which consists four A recent launch of Strategic Plan for Higher Education: Laying the School Based Assessment (SBA), disruptive students, heavy workload, Previous studies motivation is assurances would involve in every day action which could also.
